

Lean Six Sigma Master Black Belt

QAI offers two Lean Six Sigma Master Black Belt certification programs. The first program is for the Black Belts, which equips them with the skills required for the role of an MBB. The second program is for the practicing Master Black Belts who desire a recognition of their proficiency levels and want to attain global certification.

Lean Six Sigma Master Black Belt (MBB) is an affirmation of the individual's ability to lead the enterprise level deployment of Lean Six Sigma. Master Black Belts help shape the future of their company by leading both strategic and tactical aspects of Lean Six Sigma Process Improvement activities.

This certification program is designed to equip the MBB candidates with skills relevant for the changing role of a Master Black Belt. The Master Black Belt journey helps MBB candidates achieve an in-depth understanding of the implementation of Lean Six Sigma to bottom-line and top-line impacting processes.

About QAI

QAI is a leading global consulting and workforce development organization addressing "Operational Excellence" in knowledge intensive service organizations.

QAI Global Institute (QGI) is the workforce development division of QAI and engages with individuals inside organizations and with professional communities. The Institute, through learning design, training delivery, competency assessments, development and certifications enables career growth and equips individuals to help realize organizational goals.
